YOUR TOTAL SOLUTIONS PROVIDER

CSI

Dynamic Solutions. Superior Results.

Today's banking environment is complex. Financial institutions face risks at every turn, and their need for personalized service can't be diminished, either. With CSI, you get a total solutions partner with decades of industry experience and a focus on doing business the way you do—offering the latest banking solutions along with the highest levels of customer support.

YOUR INSTITUTION WILL:

- Deliver powerful customer and employee experiences through true integration
- Streamline channel interactions and simplify risk management through innovation
- Partner with a technology provider that makes customer service a top priority
- Strengthen your compliance and security posture with access to proven tools and industry professionals

CORE BANK PROCESSING

Our core banking platforms offer an integrated, high-performing infrastructure that strengthens your ability to serve customers. With customizable settings and scalability, our core systems also create efficiencies that accommodate your growth strategies.

- Two market-focused core suites offer direct integration of performance-driven solutions
- Integrated CRM, business intelligence and digital banking tools build an omnichannel experience
- Customization at bank and user level streamlines operations and improves efficiencies

DIGITAL BANKING

Our full suite of digital banking solutions allows you to engage customers and grow profitability.

- Responsive design and native apps enhance digital banking interactions
- Self-service options, like Card On/Off and RDC, improve customer experience
- Core integration supports an omnichannel strategy

ELECTRONIC & PRINT DISTRIBUTION

Our document management solutions simplify operations and the way information is shared with your customers.

- Secure SaaS delivery
- Flash/HTML5 user interface
- Seamless experience between electronic and print delivery

MANAGED SERVICES

Our managed services solutions reduce the burdens of IT management and security, allowing you to focus on more strategic projects.

- Personalized solutions delivered remotely
- 24x7 IT support, security monitoring and threat mitigation
- Real-time reporting to streamline audits and examinations

PAYMENTS PROCESSING

Our payments processing solutions broaden your capabilities to facilitate faster, more secure transactions.

- Instant-issue card program functionality
- Secure, real-time fraud monitoring
- Robust image and item capture tools

REGULATORY COMPLIANCE

Our solutions simplify your risk management burdens, strengthen your compliance posture and help you operate more efficiently.

- Enterprise Risk Management (ERM) solution ensures a holistic, integrated approach to risk and compliance
- Automated watch list screening tracks numerous lists
- Consulting services expand access to experienced compliance professionals

TREASURY MANAGEMENT

Our solutions give you access to integrated products and services that help your commercial clients save time, control risk and improve earnings.

- Full-suite of cash management tools helps mitigate risks and control entire financial portfolio
- Integration with Internet banking gives you greater visibility into business opportunities
- Products empower you to effectively consult with customers on how your services can help them reach their objectives
