

PAYMENTS PROCESSING ACH SOLUTIONS

Dynamic Solutions. Superior Results.

FLEXIBILITY, RELIABILITY & SECURITY DELIVERED THROUGHOUT THE ENTIRE ACH PROCESS

CSI provides comprehensive tools that help facilitate, manage and improve the entire ACH process. Through our fully integrated ACH solutions, you can capitalize on valuable, cost-effective services that streamline transaction processing and increase value for your customers.

CSI'S ACH SOLUTIONS EMPOWER FINANCIAL INSTITUTIONS TO GAIN
STRONGER CONTROL OVER—AND BETTER INSIGHT—INTO
THE ACH PROCESS.

CSI offers ACH+ to customers utilizing NuPoint® and ACHLinks to customers utilizing Meridian.NET.

CSI's ACH solutions empower financial institutions to gain stronger control over—and better insight—into the ACH process. Through our services, you can enhance your transaction processing so that you improve the performance for both your branches and your customers.

ACH+

CSI delivers advanced ACH services for NuPoint customers through our ACH+ service suite. These powerful tools enhance traditional ACH offerings, optimizing your institution's performance and profitability.

Through ACH+, you can access the following services:

- Empower your customers to better facilitate growing ACH activity with ACH activity filtering
- Manage Electronic Data Interchange (EDI) systematically with EDI processing
- Control risk on ACH credit origination exposure, from submission to settlement, with origination prefunding

ACHLINKS

For customers utilizing Meridian.NET, CSI offers a robust software package that helps facilitate the ACH process. ACHLinks provides multiple ACH-related functions, including identifying and handling ACH rejects, generating automated records and originating loan payments.

With ACHLinks, you can achieve the following key benefits:

- Create automated files for NOC transactions and NSF returns
- Receive payroll files and originate payroll deposits to another bank
- Generate multiple reports that improve visibility into the ACH process
