

## Create a Strong Digital Presence with a Competitive Advantage

First impressions are important. As the face of your organization—and often the first touchpoint—your website establishes your brand. To create a captivating, functional web presence that meets your unique business objectives, you need an expert team with the right tools.

CSI DesignPro transforms your traditional website into an interactive, modern virtual branch. Let CSI extend your reach and profitability with an engaging website that delivers intuitive navigation, fresh design and leading-edge features while simplifying customization and increasing traffic and conversions.

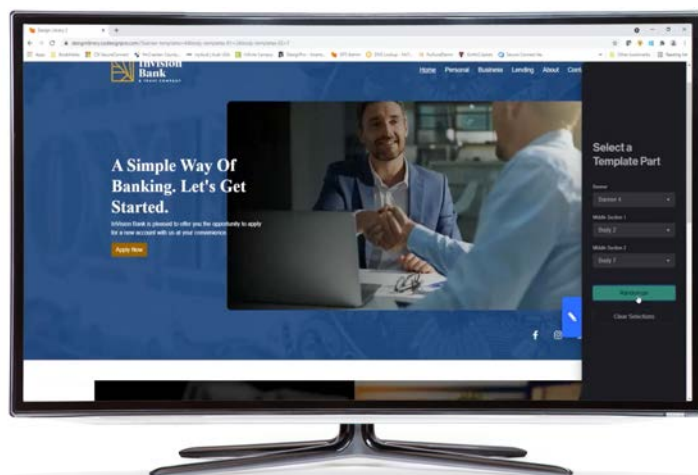

## All-in-One Website Design and Hosting

As leaders in Fintech, CSI understands the needs of community banks, credit unions and other financial institutions. Leverage our expertise to build a unique online presence that is secure, engaging and user-friendly.

**Strengthened Security** – CSI's compliant web hosting environment safeguards your website with extensive monitoring and brute-force protection.

**Accessibility Standards Across Any Device** – CSI DesignPro websites adapt and respond to any size screen and meet the latest Web Content Accessibility Guidelines, ensuring that your customers or members get the most out of their digital banking experience.

**Easy Content Management** – CSI makes updating your website easy with a custom-built, user-friendly administrative portal that requires no coding experience.

## Choose the Design Package That's Right for Your Institution

CSI DesignPro offers two design options based on your website needs, all providing a solid first impression that encourages consumer engagement and provides you with a competitive advantage.

**Design Library** – Our Design Library contains more than 1,000 layout options, providing mobile-friendly, responsive web design with customized functionality, such as financial calculators, count-down alert clocks, google analytics, social media integration, blogs and more.

**Custom Design** – DesignPro's Custom Design option delivers a unique, responsive design—built by our experts and tailored to your goals and website needs—that works flawlessly on all devices.
