

Kinective Sign for Banks

Convenient | Efficient | Secure | Legally Binding

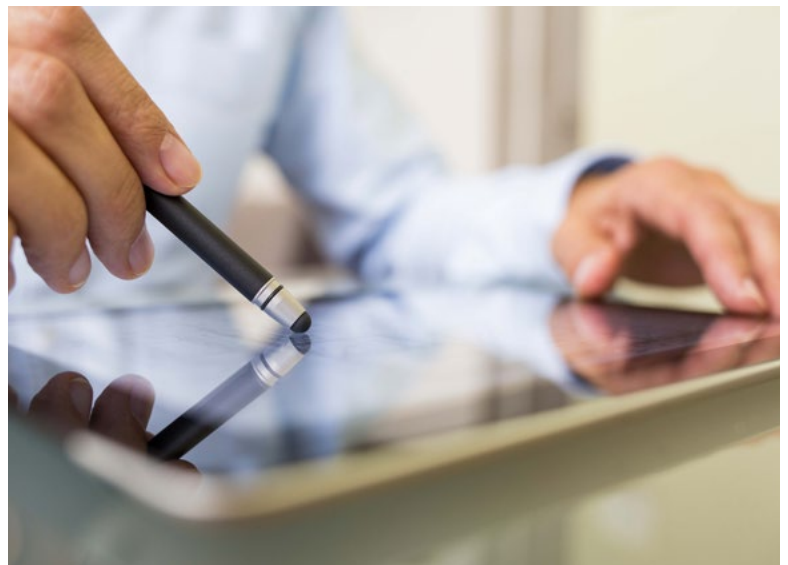

Enable End-to-End Electronic Transactions

Kinective Sign is the premier electronic signature solution for financial institutions. This integrated eSignature platform accelerates digital transformation and empowers customers to sign documents from anywhere. By automating document-related processes, Kinective Sign improves the customer experience, eliminates paper-processing costs and enhances security and compliance initiatives.

Exclusive to Financial Institutions

Kinective Sign outshines other eSignature solutions by focusing on the unique needs of banks. It provides eSignature benefits without hampering your employees' activities or adding risk to your environment.

Elevate the customer experience by allowing customers to electronically sign documents when and where it's convenient for them, either in-person or remote.

- Meet Increasing Expectations
- Offer Device Flexibility
