

CSI SECURE CONNECT

Dynamic Solutions. Superior Results.

SIMPLIFY THE WAY INFORMATION IS ACCESSED, SHARED AND UTILIZED BY EMPLOYEES, BOARD MEMBERS AND COMMITTEES

➤ **VIEW MATERIALS**
on any device

➤ **ESTABLISH SECURE, CENTRALIZED COMMUNICATION** across your entire organization

➤ **STORE CURRENT AND ARCHIVED** documents for convenience and ease

➤ **AUTOMATE BUSINESS PROCESSES** with features to assign, manage and track common tasks

CSI Secure Connect simplifies the way information is accessed, shared and utilized by your employees, board members and committees. The easy-to-use portal solution allows you to enhance corporate communication, increase productivity and decrease cost.

CSI Secure Connect maximizes communication in the following ways:

- View materials on any device
- Establish secure, centralized communication across your entire organization
- Store current and archived documents for convenience and ease
- Automate business processes with features to assign, manage and track common tasks
- Accessible via Apple & Android app

CSI SECURE CONNECT

CSI Secure Connect provides a flexible portal solution that can be tailored to fit the different content-sharing needs throughout your organization. You can easily define permissions for each user to create communication platforms for various audiences and committees.

Board members receive these advantages:

- Gain secure access to board materials and other confidential information from the convenience of their homes or offices
- Facilitate communication through online votes, discussion threads and collaboration tools
- Eliminate the need for printed binders that are heavy, expensive and difficult to maintain
- Schedule meetings more easily with a shared calendar that's integrated into Microsoft Outlook

With CSI Secure Connect functioning as an intranet, employees gain the following benefits:

- Reduce the need for email, broadcast messages, paper forms, copies and faxes
- Use policy manager for automatic distribution and required acknowledgement of policies
- Utilize fully functional timekeeping, time-off tracking and employee attendance

CSI Secure Connect is a stand-alone solution that can be implemented for any business. It requires no additional hardware or software, making it a cost-effective tool for any organization.
