CSI

JOURNEY TO THE

# PUBLIC CLOUD

As a solutions architect for CSI, Ben Reeser works with banks and credit unions to provide insight and direction on the strategic utilization of **emerging cloud and virtualization technology**.

He has more than 20 years of experience **advising financial institutions in system architecture and implementation**. Ben carries numerous technical industry certifications, including CCIA, CCEE, CCA, MCSE and other product certifications.

**BEN REESER**

Senior Solutions Architect, CSI

# WHAT IS THE PUBLIC CLOUD?

The public cloud is defined as computing services offered by third-party providers over the public internet, making them available to anyone who wants to use or purchase them.

# WHY PUBLIC CLOUD?

- What is the public cloud?
- Is my data safe in the public cloud?
- How to get into the public cloud?
- I'm already in there. Now what?

# PARTNERING WITH MICROSOFT AZURE

Microsoft Azure is a comprehensive cloud computing platform provided by Microsoft.

## Why we partner with Azure:

- Security & Compliance
- Scalability
- Integration with Existing Systems
- Disaster Recovery & Business Continuity
- Industry Specific Solutions

Q&A

THANK YOU!
